Summary

Final-year Information Technology undergraduate with a strong foundation in C++, Data Structures & Algorithms . Experienced in building web applications and software development projects. Committed to continuous learning and delivering quality solutions. Looking for opportunities to contribute to impactful projects and grow as a software engineer.

Education

B. Tech in Information Technology

Jaipur Engineering College and Research Centre, Jaipur

CGPA: 8.23 (Till 5th Sem).

2023-2027

Skills

Programming Languages: C, C++, Python, JavaScript

Frontend Development: React.js, HTML5, CSS3

Backend Development: REST API, Node.js

Databases: MongoDB, MySQL

Tools: Git, GitHub, Visual Studio Code

Soft Skills: Problem Solving, Adaptability, Team Collaboration, Leadership

Projects

Virtual Password Authentication System

[GitHub](#)

- Developed a **Virtual Password System** with two-factor authentication (password + email-based PIN) to enhance user account security.
- Built a **user registration and admin approval workflow** to ensure controlled access and account verification.
- Integrated **EmailJS** to automate PIN delivery and authentication-related email notifications.
- Designed a responsive **Admin Dashboard** for user management, approval tracking, and account monitoring.

NewsHub AI - AI-Integrated News Platform

[GitHub](#) | [Live](#)

- Developed a real-time news aggregator by integrating external news APIs, enabling users to access live news updates in one platform..
- Built backend APIs to fetch and serve news data, ensuring dynamic and reliable content delivery.
- Implemented city-based search and category filtering, improving news discovery and user engagement.
- Designed a responsive UI with dark/light mode support, enhancing accessibility across devices.

Achievements

- Smart India Hackathon (SIH):** Collaborated with a cross-functional team to design and prototype a real-world problem-solving application at JECRC.
- Event Coordinator- Renaissance:** Coordinate academic and cultural college activities, managed 100+ participants.

Courses & Certificates

- Oracle Cloud Infrastructure (OCI) Foundations Associate: Gained foundational knowledge of cloud computing, OCI services, networking, security, and cloud architecture principles.
- Python Programming Certification (InternShala): Learned core Python programming concepts and algorithms, strengthening problem-solving skills through data structure implementations.
